

## **ASC Salmon Standard**

**Indicator 3.4.3:** Estimated unexplained loss of farmed salmon is made publicly available.

**Requirement:** Yes

**Applicability:** All

Inventory difference at Doyle Island for the 2020YC was -4.78% (-26,230 pieces). The post-harvest discrepancy is attributed to the under estimation of mortality following ponding as well as the underestimation of mortality related to sea lion predation during previous winter.
